FOWLS DO PAY

those who regularly every week take advantage
of the advice which appears in

"POULTRY"

(Established 1883)

Thousands of people keep fowls but fail to
make them pay, simply because they do not
read a weekly paper which deals thoroughly
and practically with the subject.

Ask your newsagent for "POULTRY,"
the one-word *orange coloured* title
paper, 2d. weekly.
