## Murphy Chemicals Limited

We are including details of two Murphy lines this year because some areas had a good demand for them and Murbetex in particular, in 1965.

### MURBETEX

This is now available in the 2-gallon pack only and there has been a price reduction. The settlement discount has, however, also been reduced to 2½%.

	Size	Farmer's Price	Early Order Rebate	Settlement Terms	Rate
Murbetex (endothol/propham)	.. 2 gall.	£8-12-6	2/- gall.	Less 2½%	*
CIPC Liquid (40%) .. ..	.. 1 quart	£1-4-0	None	Nett	*
	1 gall.	£3-19-6			
	5 gall.	£19-12-6			

Quantity terms available for 1 gall. and 5 gall. sizes.  
\* See instruction leaflets for application rates.

## ICI Plant Protection

### NEW LINES

**Methozone 2** is formulated to give low-cost cleavers and chickweed control and contains a high concentration of C.M.P.P. It qualifies for Early Order Rebate.

**PP745** is a new bipyridyl (a chemical cousin to diquat and paraquat). It offers a wide range of weed control on cereals, including mayweed and corn marigold, and is largely unaffected by temperature.

N.B.1—Only limited quantities will be available, so get your orders in early.

N.B.2—When you make a sale, inform the Plant Protection representative, so that he can contact the farmer before PP745 is applied. This is because it is important that it is applied at the right time.

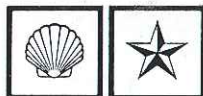

### PRICE CHANGE

The price of Butoxone is reduced by 3d. per gallon.

As you may have heard, Shell have formed a new agricultural sales organisation with Armour & Company of America and the new company goes by the name of Shellstar. Other than this, the change makes no immediate practical effect on us.

## CERTROL P.A.

Certrol P is discontinued and replaced by Certrol P.A. This contains the same active ingredients with the addition of M.C.P.A. The price has also been reduced. This new formula should give better control of Mayweed species, and has a wider weed spectrum, which includes runch and annual nettle. It qualifies for Early Order Rebate.

## PRICE CHANGE

Apart from Certrol there are none, but Triflex M.C.P.B. and T.R.A. both qualify for Early Order Rebate this year. There is also a slight change in the quantity rates of Pyramin.

## PACK CHANGES

Bladex (Simazine). The outer is now 6 x 2 lb. (instead of 5 x 2 lb.).

## CONSIGNMENT STOCKS
