

How Lovely Teeth are best protected

Remove FILM daily. Try this special way

HERE is a way to combat film . . . to give teeth brilliant whiteness. Try it for 10 days. You will be amazed at what Pepsodent can do.

Run your tongue across your teeth, you feel a slippery film. It clings to teeth, gets into crevices. Stains from food and smoking lodge in film and make teeth dingy. This film hardens into tartar.

Based on scientific study, a special dentifrice, Pepsodent, has been compounded. It removes film in gentle safety.

Pepsodent MARK
