

"ATLACIDE"

TRADE MARK

*— the safe chlorate weedkiller is
on active service*

Thousands of tons of ATLACIDE are used every year to keep British railway tracks free from weeds.

After the war ATLACIDE will again become available for use in private gardens, drives; crazy pavements and hard tennis courts, on the highways and round factories and works.

"ATLACIDE"

TRADE MARK

PLANT PROTECTION LTD • YALDING • KENT

"Atlacide".
