

From a doctor's diary

"Is V.D. treatment something new, doctor?"

No, not at all. Free Treatment Centres for V.D. were started many years ago—in 1916 in fact. More than a hundred were opened to cope with the increase in V.D. during the 1914-18 war. By 1920 there were over two hundred treatment centres in Great Britain and hundreds of doctors, nurses and laboratory workers had been trained specially for V.D. work. By 1939 the number of early syphilis cases coming for treatment had dropped to less than one-third of the 1920 figure. We were making steady progress year by year.

Then came War again—and, as always happens, V.D. began to increase. So the Government strengthened its free treatment services to help win back the ground that had been lost. And the Government also did something just as important. It tore away the curtain of secrecy that

had surrounded V.D. Nowadays we talk more openly about these diseases because we recognise that the more publicity is given to their causes and terrible effects, the more likely are we to reduce and conquer them.

Today 227 free treatment centres—often called V.D. Clinics—are available. In addition 168 specially trained doctors in various towns and villages give free treatment in their own surgeries.

The most important thing about V.D. is to avoid the loose behaviour which spreads these diseases. And anyone who has reason to suspect infection should seek advice at a clinic without delay. Some people just "put off" going. They say they are nervous about going to a clinic. But they should be much more afraid of the awful consequences of neglected V.D.

FREE CONFIDENTIAL ADVICE AND TREATMENT are available at clinics set up by County and County Borough Councils. The addresses are given on local posters. Further information can be obtained in confidence from the Health Department of your local Council's offices, or by writing to the Medical Adviser, Central Council for Health Education, Tavistock House, Tavistock Sq., W.C.1. Please enclose a stamped addressed envelope.

HEARTBURN

Immediate relief....

Directly you feel the familiar symptoms of heartburn, an unpleasant attack of wind, a rush of sour, bitter fluid into your throat, slip two Dinneford's Magnesia Tablets into your mouth and suck them so that they blend with your saliva. Thus, they will gently and pleasantly neutralize the excess stomach acid which gives you heartburn. There is nothing better than magnesia for relieving heartburn—and there is no better magnesia than Dinneford's. The pleasant handy little tablets possess the same wonderful efficacy as Dinneford's Pure Food Magnesia. Carry a box always—and you'll be well prepared! 7d. and 1/4d. including Purchase Tax.

CLEAN FRESH CLOTHES are a credit to you. What's more, clean clothes last longest! So it's well worth while perking up a dress or suit after every wearing.

Just moisten a clean cloth with a little Thawpitt and go over the back of the collar, elbows, and cuffs—they catch dirt first. But look out for any other soiled places. And don't wait until a garment is noticeably grimy.

Thawpitt is easy to use. Just follow directions on the bottle. It doesn't harm delicate fabrics or change colours. Safe to use anywhere, because it can't catch fire.

Review of the Sports

By "SENTINEL"

WITH three of his five titles at stake when he meets Joe Curran at Hampden Park on June 26 Jackie Paterson, world flyweight champion, acted wisely in retiring when his eye was cut in the seventh round of his fight with Rinty Monaghan (Ulster) last week. To have continued might have resulted in aggravation to the injury necessitating deferment of the title contest.

Curran's Merseyside fans are confident that he will win the world, British and Empire titles, but Paterson invariably produces his best form in championship bouts.

ATHLETIC STAR

A new athletic star has appeared in Alan Paterson of Glasgow. No yet 18 he has already equalled the British high jump record of 6 feet 5 inches, and while the jump with which he won the Scottish Youth's Championship at Edinburgh on Saturday was three inches less, it represented a six inch improvement on the previous best for the event.

Paterson clears 8 feet comfortably without removing his track suit and with two years

in which to develop his style before the Olympic Games he may well triumph over the best men from overseas.

NEGOTIATING

Billy Thompson, of Hickleton Main, who is regarded in boxing circles as one of the best prospects for some years, may appear at the Engineers' Club, West Hartlepool, on July 8.

Promoter Walter Hazeltine is hoping to stage a bout between Thompson, and Jimmy Jury, who impressed by his win over Hughie Smith, of Sunderland, in the main contest at the club last week. Efforts are also being made to induce among others, Stan Hawthorne and Ben Duffy, to appear here.

HARTLEPOOL WRESTLING

Wrestling is to be staged at the Borough Hall, Hartlepool, tomorrow night, and an attractive programme has been arranged. In the top-line bout Jack Pye meets the Blue Masked Marvel, and other contests bring together Jack Walsh, Jack Beaumont, the Bearded Monarch, V. Cordie Conroy, and King Kong Curtis v. Van Duitz.

WHAT EXPORTS MEAN TO US

Sending out goods like these..

brings home goods like these..

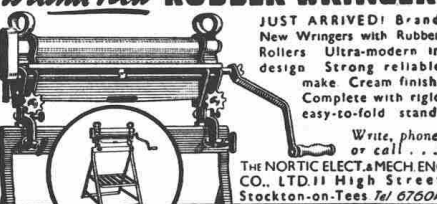

In this small island of ours we can never produce all the food and raw materials we need. We have to buy them from other countries. Then, of course, we have to pay the bill. To do this we must sell things overseas that we do produce in this island.

Quite apart from paying current bills, the war has left us with a mountain of debt to pay off, before we can get straight. We must sell, therefore, to other countries as much as we can. Then we can pay for the food we urgently need and the raw materials for our factories, and so get back to a better standard of living.

RAINED OFF

H. E. Bailey again headed the batting list with 30 runs to his credit when West Hartlepool met Norton on Saturday. West hit up 119, and Norton replied with 58 for one wicket when rain caused an abandonment of the game.
