CARBOSIL
- it loosens
dirt, grease
and oil

Use only a teaspoonful to a gallon of water.
For very soiled clothes just steep them overnight in Carbosil. Owing to special manufacturing methods, Carbosil always retains its powder form.

Use Carbosil
for washing-up
too!

**BAKED
POTATOES**

You've no idea
how good they
can be!

Children don't always like plain potatoes. But add some Marmite mixed with butter to a baked potato, and see how eagerly it will be eaten then! This "Marmite butter" (about three times as much butter as Marmite is the best proportion) makes a delicious spread for sandwiches, too; while a touch of Marmite in your soups and stews, pies, hashes and casseroles lends just that original, individual flavour which makes the cook's reputation.

MARMITE
THE GREAT
YEAST FOOD

It's not only new, but it's healthy too! Marmite will add to your everyday diet. Health in the form of the essential Vitamin B—this life-giving Yeast Vitamin.

CANCELLATION STORY.

**Objection in Favour of
Accused Husband.**

The suggestion that a telegram addressed to a man in China, whose name was the same as the first woman's maiden name, was written and sent by the accused after he had been charged, was met at Garrow, today, when the trial was resumed at Chong Yu Hui (H), a Chinese tea student, charged with murdering his wife in a bathtub used during their honeymoon. It was stated that when Miss was informed of the end of three telegrams he had written, he had only two sent-one to the Yeh, and the other to Tang Keng. An objection by counsel against accepting the telegram as evidence has been made by Miss being given in evidence, was upheld.

The couple were married in America. Leading counsel for the Crown, stated that the trial began that morning by the appearance of the body when found, and that there had been no signs of a struggle. The body was found in the bath, and there were no signs of a struggle. The body was found in the bath, and there were no signs of a struggle.

**PREPARATION FOR CABLE
MERGER BILL.**

A controlling position in Imperial Communications, the great cable and wireless combination, is one of the proposals which the Earl of Birkenhead is considering in connection with the business career on which he is embarking.

Imperial Communications is a company being formed on the basis of the report of the recent Imperial Cable and Wireless Conference to acquire the communication assets of the Cable and Wireless Company, the Government Cable, and the Post Office's own cable system.

Arrangements are being made for the new company to be formed under the provisions of the Government's Bill, which is expected to be introduced in the House of Commons in the near future.

The proposed Bill of Imperial Communications is to be drafted with a view to the interests of the Cable and Wireless Company, and the Government Cable, and the Post Office's own cable system.

It was stated in political quarters that the Earl of Birkenhead had been asked to leave the Government last week, and to take up the position of chairman of the Imperial Communications Company, and to be in charge of the new company.

The Earl of Birkenhead is a member of the House of Commons, and has been a member of the Government since 1917, when he was appointed to the post of Under-Secretary of State for India and Burma.

'The bane of sedentary life'

**THE OFFICE WORKER
and Eno's "Fruit Salt"**

Nature meant man to walk and work in the open air and live largely on the fruits of the earth. Instead—he rides in the morning to an office and rides back again at night. And he lives on a diet from which much of the good has been thrown or cooked away. Hence

—Constipation, the root cause of nearly all the minor and some of the major ills of life.

Eno's "Fruit Salt" is the natural preventive of constipation. Eno supplies and restores the motive salines which are present in a primitive diet, but largely absent from a modern

menu. These salines summon into the food canal a natural flow of water, and this flow of water keeps waste products moving along.

That is the way Eno acts—and it is also Nature's way. Eno irritates no surface and no tissue. Test it undiluted on your tongue—and your tongue, whose duty it is to warn you against things which irritate and congest, will tell you that Eno is a friend.

Modern life has no other remedy for its characteristic complaint at once so innocent and satisfactory.

The words "Eno" and "Fruit Salt" are registered trade marks.
