STARVING IN THE MIDST OF PLENTY!

Never before was food so appetising, so pleasantly served, as the food we eat to-day. And never before, as any doctor will tell you, was lowered vitality—the source of constipation, rheumatism, indigestion and most of our common ailments—so rife. For our over-refined modern food nourishes only half of us. The nerves, tissues and intestinal muscles which Nature sear us to need on the first nerves, tissues and intestinal muscles which Nature gave us to perform the first duty of health are starved into inaction!

In Bemax, scientists, having told us the cause, have at last found the remedy. And their success is being acclaimed by doctors everywhere. For Bemax restores to your ordinary food just those natural substances which modern methods of refining food take out. Be refining food take out. Bemax contains in concentrated form that vital part of cereals—known as 'vitamins'—which is the essential nourishment of the intestual nerves and muscles. A single table-spoonful of Benax with your breakfast enables you to eat what food you like and yet to enjoy amid busy work—day life that radiant vitality and health which is proof against all disorders.
